

LUÍS MIGUEL AGUIAR MACIEL

Junior Software Engineer | Backend & Full-Stack

Azores, Portugal | luismaciel2005@gmail.com | luismaciel.space | github.com/macieluis

PROFILE

Computer Engineering graduate with hands-on experience in software development, API integration and IT systems, plus a portfolio of production-style projects. Building FlowBnB end to end as a solo developer using TypeScript, Next.js, PostgreSQL/Supabase, Stripe and cloud deployment workflows. Seeking a junior backend or full-stack software engineering role with a remote or international team.

TECHNICAL SKILLS

Core: TypeScript, JavaScript, Python, Java, SQL
Backend & Web: Node.js, Express, Next.js, React, REST APIs
Data & Cloud: PostgreSQL, Supabase, MongoDB, Docker, Vercel
Engineering: Git, GitHub, API integration, authentication, CI/CD workflows

SELECTED PROJECTS

- FlowBnB — Solo Full-Stack SaaS Project**2026 – Present
- Building a SaaS for short-term rental hosts in a Turborepo monorepo with two Next.js applications, shared packages and Supabase/PostgreSQL.
 - Implemented cross-subdomain authentication, Stripe subscription flows, AI-assisted onboarding, transactional email/SMS and scheduled automations.
 - Established a production-style workflow with protected main, develop-to-staging previews, deployment checklists and runbooks. Tech: TypeScript, Next.js, React, Supabase, Stripe, OpenAI API, Vercel.
- E2EE Chat — Applied Cryptography Project**2026
- Developing a Signal-style end-to-end encrypted chat using X3DH, Double Ratchet and X.509 PKI, designed so the server never receives message plaintext. Tech: Python, cryptography.
- TrustYBet — Mobile / AI Project**2026
- Built an application pipeline that analyzes betting-slip images using OCR/LLM extraction and a quantitative workflow. Tech: Python, FastAPI, MongoDB, React Native, Expo, TypeScript.

EXPERIENCE

- IT Intern — Inforalfa** · Azores, PortugalJul 2026
- Supported maintenance and development of IT solutions with hands-on exposure to systems, networks and applications in a professional environment.
- Software Engineering Intern — Bool** · Praia da Vitória, PortugalAug 2025
- Worked on software development and systems integration across a frontend roadmap, consuming REST APIs and connecting user-facing applications with backend servers and databases.

EDUCATION

- BSc in Computer Engineering — University of Minho** · Braga, Portugal2023 – 2026
- Relevant coursework:** Computer Networks & Architecture, Operating Systems, Databases, Artificial Intelligence.

LANGUAGES

Portuguese: Native | **English:** B2 (independent user)
